<p><u>11 - Age Friendly Communities</u></p> <p>Decision</p>	

## RESOLVED

Cabinet to receive the report and to formally confirm

- Political commitment and support for the development of Age Friendly Communities in North Norfolk.
- Alignment with UK network of Age Friendly Communities (Centre for better ageing).
- Alignment with the WHO Global for Age Friendly Cities and Communities, which should be evidenced by written confirmation of the political support from the leader of the Council.

Reason for the decision

Political support and endorsement is required to enable alignment with and access to networks which will provide guidance, resources and peer support to progress the achievement of Age Friendly Communities in North Norfolk.

With the current older demographic of the district and predicted increase of older residents in North Norfolk aligning with Age Friendly Communities will assist in developing a culture of supporting older residents and visitors to live and enjoy healthy and active later lives.

In turn, this will support other services and systems within the district, including those provided by NNDC and health services, by reducing admissions to hospital and use of resources which are better provided elsewhere, increasing community and individual resilience, helping maintain independence and improving wellbeing.
