# Total households on the housing waiting list at 31st March in North Norfolk

Total households on the housing waiting list at 31st March - This is the total households on the housing waiting list at 31st March.

Local authorities are expected to keep a waiting list of housing applicants in order to deliver their statutory allocation functions.

The housing waiting list includes both households in housing need and those not in housing need. However, this should exclude existing local authority tenants seeking a transfer within the authority's own stock.

The Homelessness Act 2002 removed the statutory duty to maintain a Housing Register as of 31 January 2003. However, we expect local authorities will need to keep a waiting list of housing applicants in order to deliver their statutory allocation functions.

Authorities who have transferred all of their stock (e.g. through Large Stock Value Transfer (LSVT)) should provide figures, irrespective of who is now responsible for managing the waiting list.

This indicator is from the Local Authority Housing Statistics data returns (LAHS) Section C - Allocations

## Number of affordable homes delivered (gross) in North Norfolk

Number of affordable homes delivered (gross) - The figure reported represents a simple count of additional affordable housing units to the housing stock - newly built, including gains from conversions such as subdivision, or acquired. The total supply is the sum of social rent housing and intermediate housing (low cost home ownership and intermediate rent). As this is an absolute value for each area, care should be taken when drawing any comparisons with other areas.

This was previously reported as NI 155. Regional values are calculated from all single tier and district authorities.
