

First Draft Local Plan (Part 1)

Regulation 18 Stage Public Consultation

**Appendix E: Schedule of Representations -
Comments on Interim Sustainability Appraisal Reports &
Habitats Regulations Assessment Report**

DRAFT

BLANK

Notes

The Council undertook a major consultation exercise on the emerging First Draft Local Plan (Part 1) and a range of supporting documents between 7 May and 28 June 2019. The responses received were related to multiple proposed policies and sites in the Plan and the Council has therefore, through this document, attributed part, or all of the response to its relevant Local Plan policy, section, or other consultation document as relevant. The original consultation responses can be viewed in full on the [Consultation Portal](https://consult.north-norfolk.gov.uk)¹. All consultation and other supporting documents can be viewed in the [Document Library](http://www.north-norfolk.gov.uk/documentlibrary)².

The following tables provide a summary of the comments submitted to the Council as part of the **First Draft Local Plan (Part 1)** document consultation on the Interim Sustainability Appraisal Scoping and Sustainability Reports along with those received on the Interim Habitat Regulation Report.

Five separate appendices have been published in total: Appendix A (Individuals), Appendix B (Parish & Town Councils), Appendix C (Statutory Consultees & Other Organisations), Appendix D (Alternatives Considered) and **Appendix E (SA and HRA)**. These documents should be read together in order to gain a full understanding of the feedback received.

‘OFFICER SUMMARY - SEE ATTACHED FILE FOR FULL SUMMARY:’ This wording is used throughout the document. It applies in two scenarios where either:

1. An officer has typed a summary based on their interpretation of the comments; or,
2. An officer has inserted part of a comment and therefore the text is a summary of this particular part of the original representation.

First Draft Local Plan (Part 1)

**Comments on Interim Sustainability Appraisal Reports
& Habitats Regulations Assessment Report**

Document	Name & Consultee ID	Ref	Nature of Response	Summary of Comments	Council's Response
Sustainability Appraisal	Norfolk County Council/ Historic Environment (931093)	LP739	Support	<p>4.6 Landscape, Townscape and the Historic Environment This section provides a good summary of the baseline information for the historic environment. It highlights the importance of non-designated heritage assets as well as designated heritage assets which is welcomed and links into with other parts of the Plan.</p> <p>6. Table 4 suggested changes in red SA9: To protect, manage and where possible enhance the historic environment and their settings of heritage assets including addressing heritage at risk</p>	Consider feedback in the review and finalisation of the SA Objectives
Sustainability Appraisal	Norfolk Police (1217249)	LP734	General Comments	<p>First Draft Local Plan (Part 1) - Interim Sustainability Appraisal (Pg.134)</p> <p>10. Evaluation of Significant Effects SA Objective: SA11 to reduce crime and fear of crime Typo - Mitigation Proposal: The design policies and the North Norfolk Design Guide reflect Secure by Design principles. Should read: Secured by Design As per accompanying email please find comments for:</p>	Noted- correct typo within SA Objective SA 11 to stated 'Secured by Design' not 'Secure by Design'
Habitats Regulations Assessment	RSPB (1217391)	LP379	General Comments	Natura 2000 and European Sites are the same. It is recommended that one term only is used and repeated throughout the Local Plan	Noted - consider the use of only one term throughout the HRA and Local Plan
Sustainability Appraisal	Adams (1215905)	LP589	General comments	This plan covers up to 2036. The percentage of the population brought up with computers and smart phones will increase dramatically. The use of electric, maybe autonomous vehicles will increase making traveling easier without impacting on sustainability. Online shopping and home deliveries will increase. Internet access to medical services will increase. Many of the criteria currently used to determine "sustainability " will diminish in importance or disappear completely. Hopefully this will make it easier to offer greater flexibility and enable more people to achieve what they would like.	Noted. The SA objectives are informed by a base line evidence review which identifies the key issues affecting the District. The production of the final SA report is iterative and will be informed by the base line evidence.
