

Appendix B – NSPF Version 3 - Summary of Formal Agreements within the Statement of Common Ground

Please Note : ‘Norfolk Planning authorities’ and ‘Norfolk Authorities’ refers to the 7 district authorities that make up Norfolk (see section 1.4), the Broads Authority and Norfolk County Council.

Agreement 1 - That when preparing new Local Plans which seek to identify levels of Objectively Assessed Need for housing the Norfolk Planning Authorities will produce documents which provide for the development needs of their areas until at least 2036.

Agreement 2 - In preparing their Local Plans the Norfolk Planning Authorities will seek to positively contribute towards the delivery of the following vision.

Agreement 3 - By 2036, through co-operation between the Norfolk Authorities and preparation of Development Plans, Norfolk will seek to maximise the delivery of the following objectives (in no particular order):

- To realise the economic potential of Norfolk and its people*
- To reduce Norfolk’s greenhouse gas emissions and improving air quality as well as reducing the impact from, exposure to, and effects of climate change*
- To address housing needs in Norfolk*
- To improve the quality of life and health for all the population of Norfolk*
- To improve and conserve Norfolk’s rich and biodiverse environment*

Agreement 4 –To produce and maintain an assessment of housing needs covering the three contiguous and non-overlapping broad market areas of Great Yarmouth, Central Norfolk and West Norfolk

Agreement 5 - That Great Yarmouth and King’s Lynn and West Norfolk will each continue to prepare separate Local Plans for their areas.

Agreement 6 - That Breckland and North Norfolk will continue to prepare separate Local Plans for their areas whilst Broadland District Council, Norwich City Council and South Norfolk Council will co-operate on a new Greater Norwich Local Plan that will replace the current Joint Core Strategy and various other existing Local Plan documents in this area.

Agreement 7 - That, in view of the very distinct issues facing the Broads Authority Area, spatial planning matters will continue to be best addressed by way of a standalone Broads Local Plan.

Agreement 8 – Norfolk Authorities will work positively to assist the New Anglia Covid 19 Economic Recovery Restart Plan

Agreement 9 - The list of locations in section 5 are the Tier One Employment sites and should be the focus of investment to drive increasing economic development in key sectors, and protected from loss to other uses.

Agreement 10 - The recently adopted and emerging Local Plans for the area will include appropriate policies and proposals to recognise the importance of the above cross boundary issues and interventions.

Agreement 11 - When determining their respective Local Plan housing targets each Norfolk Authority, working together where desirable, will aim to deliver at least the local housing need as identified in the most up to date evidence (Table 9). Where this would result in unsustainable development, agreement will be sought with other authorities, initially within the same Housing Market Area, to ensure sufficient homes are provided to meet identified needs and demands in the area until at least 2036.

Agreement 12 – The Broads Authority will meet its calculated portion of the wider housing requirement as far as is compatible with the protection of the Broad’s landscape and special qualities.

Agreement 13 – South Norfolk, Norwich City, Broadland, North Norfolk, and Great Yarmouth Councils will seek to include appropriate provision within their Local Plans to address the housing needs arising from the parts of the Broads Authority area overlapping their administrative boundaries if these cannot be met within the Broads Local Plan.

Agreement 14 – Broadland, Norwich City, and South Norfolk Councils will seek to deliver an additional supply of homes within the Greater Norwich Local Plan to ensure the housing needs arising from the City Deal are met in full.

Agreement 15 - The Norfolk Planning Authorities will quantify the need for, and plan to provide for, the specialist accommodation needs of the elderly, students, gypsy and travelling Show People, and those residing in other specialist types of accommodation and working together will ensure that the distribution of provision responds to locally identified needs.

Agreement 16 – All Norfolk Planning authorities will produce their Housing and Economic Land Availability Assessments to the standard Norfolk methodology.

Agreement 17 - To minimise the risk of slow delivery over the next plan period, where it is sustainable to do so, the following will be done:

- Housing strategies will seek to allocate a range of different sizes of sites, where such sites are available and would result in sustainable development.
- Clear evidence and demonstration of ability to deliver development will be required prior to the allocation of larger sites for development.

Agreement 18 - Norfolk authorities agree to endorse the Planning in Health: An Engagement Protocol between Local Planning Authorities, Public Health and Health Sector Organisations in Norfolk and undertake its commitments. Norfolk; and the authorities agree to consider matters relating to healthy environments and encouraging physical activity, and are fully integrating these into a potential Norfolk-wide design guidance and local design codes (which will inform local plans and neighbourhood plans), drawing on key guidance such as Building for a Healthier Life and Active Design.

Agreement 19 - Norfolk Planning Authorities agree that climate change is an urgent, strategic cross boundary issue which will be addressed at the heart of Local Plans. To do this, the Authorities agree to give consideration to the approaches in the NSPF Climate Change research Paper of this report when the relevant policies are next being reviewed and updated as part of the Local Plan process and their appropriateness considered against local factors including viability of developments. Norfolk Planning Authorities agree to collectively review the latest evidence and advice on a regular basis and to update this research to ensure that the most appropriate actions are being undertaken to support climate change initiatives.

Agreement 20 - Norfolk Planning Authorities agree to work together to investigate the production of a county wide climate change best practice guidance/design guide and produce a brief for this work. This work will could help facilitate climate change and healthy living initiatives across the county by providing high level principles.

Agreement 21– Norfolk Authorities have agreed to become members of WRE, and to work collaboratively with its other members in the development of the Norfolk Water Strategy to ensure the project delivers the best outcomes for the county. Norfolk Authorities will also work collaboratively as part of WRE to enable the successful co-creation of WRE's wider Regional Plan.

Agreement 22 – Norfolk is identified as an area of serious water stress, the Norfolk Planning Authorities have agreed that when preparing Local Plans to seek to include the optional higher water efficiency standard (110 litres/per person/per day) for residential development. Those Authorities served by Anglian Water Services will also emphasise the water efficiency incentive for 100 l/p/d.

Agreement 23 – The Norfolk Authorities, Anglian Water and Essex and Suffolk Water have agreed to provide regular and timely updates to each other on the delivery of development sites and proposed utility projects to ensure that development is aligned with water and wastewater infrastructure. LPAs will produce Habitat Regulation Assessments, as required, that will also consider impact of development on sensitive sites.

Agreement 24 - To support the high speed broadband provision in emerging Local Plans, Norfolk Planning Authorities will consider the extent to which they could require high-speed broadband to be delivered as part of new developments and consider the promotion of Fibre to the Premises (FTTP) to smaller sites.

Agreement 25 - To maximise the speed of rollout of 5G telecommunications to Norfolk, Norfolk Planning Authorities will continue to engage with Mobile Network Operators and Mobile UK on their 5G rollout plans for Norfolk. When reviewing Local Plans and updating relevant policies, Local Planning Authorities agree to have regard to the shared objectives for extending 4G coverage and the rollout of 5G infrastructure in Norfolk produced by the technical group, taking into account material planning considerations.

Agreement 26: Norfolk Planning authorities will continue to work closely with the County Council and school providers to ensure a sufficient supply of school places and land for school expansion or new schools, and use S106 and / or Community Infrastructure Levy funds to deliver additional school places where appropriate. The authorities agree to continue supporting the implementation of the County Council's Planning Obligations Standards as a means of justifying any S106 payments or bid for CIL funds needed to mitigate the impact of housing growth on County Council infrastructure.

Agreement 27 - Norfolk Planning Authorities and the MMO agree that there are currently no strategic planning issues remaining to be resolved and that there is no conflict at a strategic level between the NSPF and adopted Marine Plans. Both parties agree to continue to work together in the preparation of Local Plans being brought forward in Norfolk and any review of the MMOs Marine Plans. Both parties have identified the following areas of common strategic issues:

- Infrastructure
- Governance
- Heritage
- Marine Protected areas
- Marine and coastal employment

- Sustainable port development
- Energy – offshore wind and oil and gas
- Access for tourism and recreation
- Sustainable and aquaculture fisheries in small harbour towns
- AONB and Seascape and landscape (character and natural beauty)
- Biodiversity
- Marine aggregates
- Cabling
- Water quality/water supply and sewerage
- Climate change/ Coastal erosion and coastal change management

Agreement 28: In recognition of:

- a) the importance the Brecks, the Broads and the Area of Outstanding National Beauty, together with environmental assets which lie outside of these areas, brings to the county in relation to quality of life, health and wellbeing, economy, tourism and benefits to biodiversity;
- b) the pressure that development in Norfolk could place on these assets; and
- c) the importance of ecological connections between habitats

Norfolk Planning Authorities will work together to complete and deliver The Norfolk Green Infrastructure and Recreational Impact Avoidance and Mitigation Strategy which will aid Local Plans in protecting and where appropriate enhancing the relevant assets.

Agreement 29 : It is agreed that:

- 1) It is essential that there is a sufficient supply of minerals to provide the infrastructure, buildings, energy and goods that the country needs. The Norfolk Minerals and Waste Local Plan will therefore enable Norfolk to continue to be self-sufficient in the production of sand and gravel, whilst making an important contribution to the national production of silica sand.
- 2) A steady and adequate supply of minerals to support sustainable economic growth will be planned for through allocating sufficient sites and/or areas in the Norfolk Minerals and Waste Local Plan to meet the forecast need for sand and gravel, carstone, and silica sand.
- 3) Since minerals are a finite natural resource, and can only be worked where they are found, best use needs to be made of them to secure their long-term conservation. Resources of sand and gravel, carstone and silica sand within defined Mineral Safeguarding Areas will be safeguarded from needless sterilisation by non-mineral development. Infrastructure for the handling, processing and transportation of minerals will also be safeguarded from incompatible development. Defined waste management facilities and water recycling centres will be safeguarded from incompatible development.
- 4) The Norfolk Minerals and Waste Local Plan policies will enable the re-use, recycling and recovery of waste in Norfolk to increase, thereby reducing the quantity and proportion of waste arising in Norfolk that requires disposal, in accordance with the Waste Hierarchy.
- 5) The Norfolk Minerals and Waste Local Plan will enable Norfolk to be net self-sufficient in waste management, where practicable and to enable sufficient waste management infrastructure to be provided in order for Norfolk to meet the existing and forecast amount of waste expected to arise over the Plan period.
- 6) The Norfolk Minerals and Waste Local Plan will direct new waste management facilities to be located in proximity to Norfolk's urban areas and main towns. Priority for the location of new waste management facilities will be given to the re-use of previously-developed land, sites identified for employment uses, and redundant agricultural and forestry buildings and their curtilages.
- 7) The Norfolk Minerals and Waste Local Plan will contain policies to ensure that minerals development and waste management facilities will be located, designed and operated without unacceptable adverse impacts on the amenity of local communities, the natural, built and historic environment, the landscape and townscape of Norfolk.

Agreement 30: In recognition of the benefits gained by co-ordinating and co-operating on strategic planning activities the Norfolk Planning Authorities agree to support the activities of the Norfolk Strategic Planning Member Forum and to continue to appropriately resource joint planning activity.

Agreement 31: Norfolk Planning Authorities with support of the signatories of the document agree to maintain this statement of common ground.
